Manufactured Work Platforms

Type WP-G Zinc Plated Work Platform

With a fully welded construction, the WP-G Work Platform is supplied ready for use. The upper protection panel is bolted into position, being removable for transport and storage purposes.

The WP-G is fitted with a self closing gate and bow lock for added security. Slipper pins (pictured) are supplied to secure the cage to the forklift tines.

- Safe Working Load: 250 kg
- Load Centre: 600 mm
- Unit Weight: 115 kg
- Fork Pocket Size: 160 mm x 65 mm
- Fork Pocket Centres: 640 mm

Locking Pins

PLEASE NOTE: The use of a WP-G Work Platform on a forklift truck should not be considered if the capacity of that forklift is less than 1825 kg for a counterbalanced type or 1095 kg for a straddle type forklift.
